

**Definition 1.** *The map below defines the **Cone** relation.*

*The **Cone** relation includes three sets:*

- *The domain consists of 1 ice cream cone identified in the map.*
- *The codomain consists of the 3 family members identified in the map.*
- *A set of ordered pairs. The pair (cone, person) is a member of the Cone relation if the cone is connected to the person with an arrow.*

**Exercise 1** How many items are in the domain of Cone?

**Feedback (attempt):** Just one chocolate cone.

---

**Exercise 2** How many pairs are in Cone?

**Feedback (attempt):** Just one chocolate cone.

---

**Exercise 3** Is Cone a well-defined function?

**Multiple Choice:**

- (a) Yes ✓

(b) No

**Feedback (attempt):** Each domain cone is associated with exactly one codomain person.

---

**Exercise 4** How many items are in the range of Cones?

**Feedback (attempt):** Only one of the three persons has an arrow pointing to her.

---
